AMENDMENTS TO THE CLAIMS

Listing of Claims:

1-42. (Canceled)

43. (New) A supply unit for a soap dispenser, comprising:

a box defining an interior space sized and shaped to receive a supply of liquid soap, a first side of said box including a section defined by a perforated score line configured to define an aperture when said section is detached from said box, said aperture configured to permit said supply of liquid soap to be dispensed from said box, a second side of said box defining a recess configured to receive and support a battery outside of said interior space; and

a bag containing a supply of soap placed within said interior space of said box.

44. (New) The supply unit of Claim 43, wherein said box has an open upper end, additionally comprising a plate sized and shaped to cover said open upper end.

45. (New) The supply unit of Claim 44, wherein said plate extends over said recess.

46. (New) The supply unit of Claim 45, wherein said recess extends an entire width of said box.

47. (New) The supply unit of Claim 43, additionally comprising a battery received within said recess.
